Groundwater Sustainability Plan (GSP) Alternative Plans

- Decisions on alternative plans to groundwater sustainability plans were announced July 17th, 2019.
- The assessments consist of a staff report and either a signed findings document, for approved alternatives, or a letter with a concise summary of the deficiencies that result in the alternative not being approved.
- For basins where an alternative is not approved, the release started a 30-day period for those submitting agencies to notify the department in writing if there is information in their original submittal that addresses the deficiencies. This 30-day period is not an opportunity for the submission of new or supplemental data; only information contained in the original (i.e., as of January 1, 2017) submittal will be considered.
- If a written response is submitted to the Department within those 30 days, DWR will review that response and either (a) confirm the original recommendation from the staff report or (b) modify the staff report if information was missed during review. In either case a signed findings document will then be issued no later than 60 days following the close of the 30-day initial response period.
- Assessments, FAQs, and next steps can be found here: <https://water.ca.gov/Programs/Groundwater-Management/SGMA-Groundwater-Management/Alternatives>

August 2019 DWR Updates

Reminder: For basins that have been affected by the recent basin boundary modifications, GSAs need to update their boundaries to ensure the entire basin is covered. If a GSA does not have GIS staff, DWR staff can assist with updating your map's shapefile. A recently updated FAQ can be found here: <https://water.ca.gov/-/media/DWR-Website/Web-Pages/Programs/Groundwater-Management/Sustainable-Groundwater-Management/Groundwater-Sustainability-Agencies/Files/DWR-GSA-FAQ-Final-2019-05-10.pdf>

Grants

Prop 68 Sustainable Groundwater Management Planning Grants

- DRAFT Guidelines and Proposal Solicitation Package (PSP) released 5/3/19 and are available here: <https://water.ca.gov/Work-With-Us/Grants-And-Loans/Sustainable-Groundwater>
- In this round there will be approximately \$47.25 Million available to fund GSP completion with prioritization for basins that did not receive prior GSP planning funding. An implementation round will have at least \$88 million and the PSP is expected to come out in mid-2020.
- Application templates were emailed out through the SGWP listserve. Please let me know if you would like a copy and did not receive one.
- Please see the updated SGM Grant Program schedule here:

Bulletin 118: California's Groundwater

- DWR wants your input on Bulletin 118 as it prepares for the 2020 update. Bulletin 118 is an inventory and assessment of available information on the occurrence and nature of California's groundwater and is used to inform decisions affecting the protection, use, and management of this resource.
- A new Bulletin 118 [fact sheet](#) is available to provide more information.
- [Take the brief survey](#) and let DWR know how you use, and how we can improve, Bulletin 118.
- If you have questions, contact Brett Wyckoff at Brett.Wyckoff@water.ca.gov
