

Cosumnes Subbasin Working Group
*****Monthly Updates – June 2021*****

Below are brief updates related to SGMA implementation in the Cosumnes Subbasin. To keep Working Group conversations focused on GSP development, we are not planning to cover all this material during the June 16, 2021, Working Group meeting. However, if there is a topic below that you believe merits discussion with the full Working Group, please let us know and we will do our best to work it into the agenda.

- **Public Workshops.** Public workshops were held June 2 and 3, 2021. The Outreach and Engagement Committee continues ongoing outreach and to prepare for upcoming public workshops for the public draft GSP (August 2021). More details will be shared at the Working Group meeting.
- **Tribal outreach.** Several GSA representatives are continuing efforts to strengthen outreach to tribal representatives. Specific updates will be shared at the Working Group meeting.
- **ESJ / South American updates.** No updates at this time.
- **Grants.** The subbasin's 10th invoice (first quarter 2021) for ~\$226k was submitted on [May 21](#).. Timely submittal of all invoicing from other agencies being used for cost share is helpful for submitting invoices to DWR.
- **Tracking Logs.** A reminder to GSAs to closely track all outreach efforts within your jurisdiction as this is a key requirement under SGMA. This includes SGMA-focused public meetings being led by your GSA, email updates out to constituents, survey efforts, etc. Please use the tracking log CBI distributed to all GSAs following the November 2020 Working Group meeting.
- **DWR Updates.** Please see the additional handout for updates from the Department of Water Resources. A couple of updates to note:
 - **First round of GSP reviews** - DWR released its first assessments of GSPs on June 3rd ([refer to DWR Update handout](#))
 - **Drought EO Listening Sessions** - State agencies (DWR and State Water Board) will host Listening Sessions as part of the Drought Executive Proclamation to develop drinking water well principles and strategies. (June 29 and June 30) ([View event notice](#))
