March/April	Public Workshop <ul style="list-style-type: none"> • Input on implementation plan and selected P/MAs
June 30	GSP Development <ul style="list-style-type: none"> • Administrative Draft GSP due

Winter Workshop Draft Agenda Topics (*Dec Scenario*)

- I. SGMA SMC orientation/reminder

- II. Values discussion – Undesirable Results (What is significant and unreasonable to you and why?)

- III. Options – present 3 conceptual scenarios, discuss pros/cons
 1. **Status Quo / No Action**
 2. **Halt Where Things Are**
 3. **In-Between/Glide Path**

- IV. Conceptual P/MAs – Present various options (and their general cost ranges) and potential funding options.

Upcoming Workshop Timing – Dec or Jan?

If December

Advantages:

- Obtain input prior to finalizing options
- More input from ag?

Drawbacks

- Lower expected attendance
- P/MAs may be too conceptual

If January

Advantages

- More attendees expected
- P/MAs have more specifics

Drawbacks

- Unable to suggest other P/MAs to input into model
- Condensed timeline

Other Considerations

- *Utilize other outreach strategies to accommodate for the drawbacks of either option.*
- *3 public workshops may be too much*

WG Input Request

- Should we hold a public workshop in December or January?
- If December, what dates - Dec 1, 8, 9, or 10th
- If December, does the Outreach Committee have the greenlight to begin outreach (e.g., publicize save-the-dates)?
