

Cosumnes Subbasin Working Group
*****Monthly Updates – December 2020*****

Below are brief updates related to SGMA implementation in the Cosumnes Subbasin. To keep Working Group conversations focused on GSP development, we are not planning to cover this material during the December 16 Working Group meeting. However, if there is a topic below that you believe merits discussion with the full Working Group, please let us know and we will do our best to work it into the agenda.

- **Grants.** Below are several brief updates related to current or future grants:
 - Sacramento County is working on a reimbursement request for Prop. 68 activities.
 - No other updates related to the existing Prop. 68 and Prop. 1 grants.
- **Tribal outreach.** SRCD attorney Holly Roberson led a workshop on tribal outreach for GSAs and interested members of the public on Tuesday, December 15. GSAs will be discussing ways to strengthen outreach to tribal representatives as GSP development moves into its final year.
- **ESJ / South American updates.** No updates from either the ESJ or South American Subbasins at this time.
- **Dept of Conservation SGMA Watershed Coordinator grant.** No new updates on Southeast Sacramento County Agricultural Water Authority's Department of Conservation SGMA Watershed Coordinator grant application.
- **Tracking Logs.** A reminder to GSAs to closely track all outreach efforts within your jurisdiction as this is a key requirement under SGMA. This includes SGMA-focused public meetings being led by your GSA, email updates out to constituents, survey efforts, etc. Please use the tracking log CBI distributed to all GSAs following the November Working Group meeting
